2. Reach - who are we best equipped to reach
3. Discipleship path - Define discipleship and what are next steps
4. Growth Engines - We will determine the 3-4 core growth engines of the church - ministry, events strategies that will help us grow
5. Five-year Vision - We will determine a clear and specific vision for Crossroads
6. Culture - We will identify 5 key behaviors that set and drive the culture we are trying to create within our church... this also sets the stage for the retreat in April.
7. Church Health Monitoring - Creating a matrix/dashboard to monitor the key vital signs and track the culture shaping behaviors.
8. Action Plan - We will break down everything that needs action to accomplish the five year vision. Then, we will prioritize the three action steps that will become our first 90 day sprint.
